

Professional Aluminium Clay Pigeon Thrower Instructions.

All parts of the thrower must be secure and in good order.

Check the screws and nuts, spring clip, rivets & rubber handle before use.

The spring clip must hold the clay onto the throwing arm securely.

Slide each clay from the end of the throwing arm underneath the spring clip.

Bend the spring clip to suit different sized clays.

(Clays not included)

Practice throwing clays before allowing shooting to start.

Different clays may need to be placed further forward or back on the throwing arm.

Accurate target direction depends on practice.

Throw clays using a one handed 'Rounders' or 'Tennis' style as in the pictures.

Start of throw

Mid swing

End of throw

Wear gloves, head, eye and ear protection when using the thrower.

Do not allow a shotgun to be pointed at anyone.

Do not throw clays from in front of any shotgun or shooter.

Do not throw clays from behind any shooter or spectators.

Do throw clays from a position that clays or fragments might injure anyone.
